

# Security Solutions Day 2009

PETALING JAYA | 16 JUNE 2009 | 8:30 am to 1:00pm

ONE WORLD HOTEL, ONE UTAMA

While IT security spending has been increasing in recent years, unfortunately so have vulnerabilities and successful attacks. Enterprises are still being plagued by attacks and intrusions that are capable of evading traditional perimeter and host defenses. Professional hackers are coming up with new and sophisticated ways to steal data without being detected. Security Solutions Day brings you the best-of-breed network security solutions to increase control over network security and heightened awareness of today more sophisticated threats and ways to protect your infrastructure against such threats now and in the future. **Please come and join us**

**on 16th June 2009 to find out more.**
