

The Technology Luncheon 2009

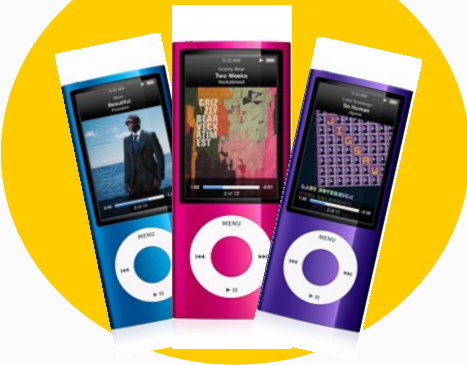

19th Nov 2009

9:15 am to 12:00 pm

One World Hotel

As the threat landscape changes, IT networks are becoming more complex and perimeters are gradually receding. This seminar discusses how these changes have arisen and the need for businesses to unify control of the good, the bad, and the suspicious. Don't miss this opportunity to join this networking lunch to learn more about the proactive steps you can take to make your organization more secure. *Please come and join us on 19th November 2009 to find out more.*

**Stand a chance to WIN a
iPOD NANO**
